Choruses:

- You are my angel of light, why did you leave me come night
- Our love is just not meant to be
- Yes you are a gift with your love and your beauty, so I'll buy your gift with these presents and my money
- I won't let you lie to my anymore
- Burnin' Up Tonight

You can see my whole life has been turned right upside down
And I will never be the same until this falls down
Why do you want to be alive for the end of the world
So that you don't take it hardly when I beat your girl

O my god, I'm just wishing that I could just be free one day
^ 'Cause you are the bad soul in my head, and I am wishing I could be free ^
You can tell me now if this is where I need to be
I am feeling you so closely and this is my dream

You can tell me; is this the life you want to life
Love is dead
Love is dead at last

Diplo (feat. DRAM) - Look Back)

Verse 1:

Zoning on the road

Not knowin' where to go

But I ain't lookin' back

I ain't going back to that

Looking down on the globe

Outta this world I know

Somehow tryna breathe

Back baby

Chorus:

And I haven't looked back, uh

Since I made up my mind

To never look behind, no

And I haven't looked back, uh

For a very long time

I don't, I don't see myself looking back for you man

Reasons why is cause **I'm only looking forward man**

Verse 2:

Revenge is waiting down the road

I'm steadily moving forward

Even though i don't know where to go

You gotta know that I'm never looking back for ya

Cause **you remind me of the struggle**
From where I had to come from under
I used to have to use my muscle
Gotta be strong, living this life,
Right or wrong

Cause this life that's very real to me
Is relatable to you
Seem like such a difficult task
But to me I was just staying true

True to mine and true to yours
Tryna relieve the pain that we endured
If you don't want relief you're still my bro
You lost but I still love you so

Chorus:
And I haven't looked back, uh
Since I made up my mind
To never look behind, no

And I haven't looked back
For a very long time
For a very long time, oh

And I haven't looked back, uh
For a very long time

I don't, I don't see myself looking back for you man
Reasons why is cause I'm only looking forward man

You know I haven't looked back for you lately
You know I haven't looked back

I fell in love, you were a ghost
Now you're broken, on your own
Now I'm alone, without a hope
I have no kids to take me home to

I wish that I had you
I wish that I loved you

I don't need to let it go tonight to feel it

Don't need to feel it myself cause I'm alone

And now no emotion, no feelings

No breaking, no healing

You know I'm here to stay

I am a dead soul away

I don't need anything to stay alive

I just need to keep this knife away from me

Throw it in covers, I'm breaking new lovers

Now I'm alone

Now I don't see

My whole life is the destiny

I don't need no sympathies

You just need to stay away from me

I know that I'm done in this world, but I'm ok with that

I don't need to feel happy to make this window pass

I just want to let you know that I'm not going to use it for good,

Well, at least not for the feelings of the emotions you once had

I'm just laying next to you so that I can be warm in my life

You don't need to feel nothing because I'm nothing in the night

I don't care what you think about me,; we're never gonna be apart

Cause I'm going to see the feelings and just tear you apart

Don't come in and see my monster, you'll hate everything you find

You will only be disgusted behind all of the lies

I wish that I could be happy, but that's not meant to be

I'm just an ordinary guy without a choice in his destiny

Now I see that you're here to stay

You don't need to feel good about yourself anyway

I just want to let you know that I'm using you for warmth

I don't need anything else from you, like love or sex or touching it all

**I just want to let you feel that this is something I know-ow
You can tell me if this is right, but I don't give a fuck alright**

**You can tell me if you want to, that you were fucking wrong
I don't need to feel nothing as I pull myself close**

**I just want to let you know that I don't give a shit about you
You could die of AIDS and I wouldn't even miss you**

**I just needed you to know that I'm using you for the best, well
At least what your body can provide me with honest, facist death**

**I don't need you
I could just replace you**

**That's the acceptance I must pay
All of the loving, any way I just don't care**

**I just want you to come over and sleep beside me in the night
So all of the demons won't torment me as I sleep alright**

**I just wish that I could just know if I'll be happy one day
Well I don't need to know the satisfaction that you'll be ok**

**I just want you to know; this is a one-time shot, a big deal
Though I'm addicted to your body so I might as well know how it feels**

**But I'm not going to give myself up that way, I can't get you to touch me the other days
I can't make you feel like there's something worth it anyway**

**I can't let you get closer
If you let me put it in and shudder
I will stay stuck and now you will have a world of torment apart**

**And I can't let you go
And I can't let you stay
What the hell am I supposed to do?
Why can't I just get off this nicotine**

**And now I'm feeling hooked, and I'm broke
And I know everything that I took
Now I can't just give it back cause it's finished and I'm fucked up tonight**

**Let me be, let me see
Let me be my own destiny**

**I'm nothing special, just fucked up
A father of a normal being**

What's anybody to say if I'm like them, or if anything about me is anything that they can take
Everything that they can make
They don't even know anything about me

**They can't see me
They can't erect me
They can't make me feel something in my heart**

**Cause now it's taken and it was shattered apart
When you threw down that ring and said we'd be forever apart**

**And now I can't see anything clearly now
Cause I had a future, a destiny, at the chapel right over the falls**

**And now there's nothing left of it
And now I feel broke and spent
You can take this broken body and throw it over, abort it**

I don't need anything from the earth
Maybe just a warm body at night
Because it gets cold in the chilly Pittsburgh north.

**It's so cold
I'm feeling old
I say hello, as I'm single, but that's the way it goes**

**No one can handle me
No one can take me
It'd take someone like a superman to save me**

Amazing to see our future come alive tonight
You know that this is its grave now tonight

I still don't feel so alone, I feel you in my heart
You know that this thing will only break us two parts

You still haunt in this world, you can never stay
You make me feel so alone, I'll break the world today

You make me feel alone in this life

You know that I'm feeling you, so I'll cut it off tonight

I've seen the way it goes

I fucked up tonight

You know that I can see you as I take you apart

**You know that the distance makes us weak, but we could have been strong
But I know I got to be on my own tonight again**

I'm not your superman, I'm not going to take the world and make it better for you
All I'm going to do is damage and make you feel weak again

I'm not for you, let's go
And please, let's separate this
I'm sick and I'm tired, I feel like I'm hating
And I feel like I can't be human again

**Let me fuck up, let me mess up
Let me loose control, let me lose my mind, my dynamite
Make me feel like there's a reason I'm alive**

What this for you? To find somebody better to do
All of the things that I couldn't treat you

I only see us growing apart, different ways

Don't want to see you take away from my heart
I don't want to see you take the bad road
I just want you to know that I'm a dead soul

I don't want to see you feeling bad for yourself
I was dead before I met you, so don't walk away from the fear
I don't want to hear that you've gone away too far
You know that none of this will heal when we are that far

I know that for you, you have a lot to say
Don't feel bad because it's just not your fault
All I want to tell you is all the things I see in my life
But I'm a dead soul so that's the way it'll end tonight

I don't want to say the thing that will make you cry
I'm just a dead soul, please accept that tonight

I don't want to make you feel like it's your fault in this life
I don't want to tell you things that'll make you cry tonight
I don't feel good inside, cause that's just the way it goes
I don't want to make you feel like it's your fault tonight

Just know that I'm not here to be a good soul in this life
You know it's not the distance, I would have made us drown tonight
I know that this seems wrong to say in our life
You don't got to tell me no because the city is right

I don't want to make you think that this world is too overcome
I don't want to make you cry cause I know it's your fault tonight
I don't want to sit here while you go and just cry
You just got to look at me as the distance falls tonight

I don't want to make you say "It's my fault in this life"
You don't got to feel bad because it's not your fault tonight
I just want to let you know that it's not your fault tonight
You don't got to feel bad because I fucked up tonight

**I don't want to make you think that you had us in the park
I was a messup before I met you, I just wanted some warmth
To heat my cold body as it kills itself north**

**I just want to let you know I love you for the best, well
As much as love exists because love is dead at last**
